

## Medical Test Checklist

- What does the test measure and why do I need it?
- What if I don't have it – are there any alternatives?
- Does my health insurance cover the whole cost? If not, how much will I have to pay?
- How accurate is the test?
- How is the test performed, is it painful?
- How should I prepare for the test?
- How will I feel after the test?
- When will I get the results?
- What's the next step?
